SUBJECT No. 384.

Construction of a "Vimana" to the Sri Channakesavaswami temple at Belur.

Messrs. Kesavadasa Iyengar and Veerasetty, Belur taluk.

Summary of discussion.—The old *Vimana* to the temple was removed and a new one is not yet built. The question of building a new one was investigated by a number of engineers, many of whom made a close inspection of the existing walls of the temple, etc., and expressed the opinion that it was possible to build one. After some time, an adverse opinion was formed and Government were pleased to say that it was impracticable. The present Chief Engineer may be kindly deputed to examine the temple and express his opinion thereon. That such a famous temple as that of Belur should be without a *Vimana* is a sad want.

Reply of Government.—Recorded.

Water-supply to Arsikere town.

There are a good many date trees near the latter, and if these are removed and the water used, it may become more fit for drinking purposes.
